EXPERIENCE

Web Development Diploma — Coursework and Team Projects

Aptech Institute

Karachi, Pakistan

- Built responsive, cross-browser websites using HTML, CSS, JavaScript, and Bootstrap through structured coursework and team projects.
- Developed and customized websites on WordPress and Bubble.io, including theme, plugin, and workflow configuration.
- Collaborated on team-based development projects, dividing tasks and integrating individual contributions into a shared codebase.
- Managed version control using Git and GitHub, including branching and commit history for team submissions.
- Applied on-page SEO best practices — meta tags, semantic HTML, and page-speed considerations — to improve website performance and discoverability.

PROJECTS

Personal Portfolio Website [neh-mohammadali.github.io/portfolio](https://github.com/neh-mohammad-ali)

- Designed and built a responsive personal portfolio site from scratch using HTML, CSS, JavaScript, and Bootstrap to showcase projects and skills.

WordPress Websites

- Created and customized multiple responsive WordPress sites, including theme selection, layout customization, and plugin integration.

Bubble.io Applications

- Developed interactive web applications in Bubble.io using custom workflows and dynamic content to replicate real app functionality without traditional backend code.
